JANUARY	1- 56
FEBRUARY	57-128
MARCH	129-200
APRIL	201-280
MAY	281-360
JUNE	361-448
JULY	449-528
AUGUST	529-600
SEPTEMBER	601-680
OCTOBER	681-760
NOVEMBER	761-832
DECEMBER	833-904

A

Adams, R. L.	
Our shrinking farm lands	414
AGRICULTURAL ENGINEERING (Agricultural Engineers)	
Comparison of soil and water majors in civil and agricultural engineer- ing curriculums	662
Agricultural processing engineering	333
Air-flow meter for crop drier	658
Air flow with perforated metal sheet, Measuring	420
Albrecht, Carl F.	
Centennial of farm mechanization	878
Alcohol-water injection in trucks and farm tractors, Practical experiences with	319
Allred, E. R.	
Introducing fertilizer solutions into high-pressure irrigation systems	171
Aluminum pipe, Friction loss in	715
Ammonia fertilizer, Application of an- hydrous	801
Analysis in design, Rationalizing	303

B

Baird, Ralph W.	
Runoff from conservation and non- conservation watersheds	95
Baker, V. H.	
Lethal effects of electrons on insects which infest wheat, flour, and beans (Part II)	407
Bakes, P. R.	
Performance of the Henry phase con- verter	98
Balancing agricultural engineering re- search	479
Baler, Power characteristics of a plung- er-type forage	221
Barnes, Kenneth K.	
A runoff sampler for large water- sheds—Part I. Laboratory studies	84
Self-feeding of chopped hay	551

Bartel, F. O.	
Parallel rows and parallel terraces	307
Bateman, H. P.	
Combining corn	500
Beenhouwer, O.	
Estimating infiltration	719
Beresford, Hobart	
Self-feeding of chopped hay	551
Berousek, E. R.	
Hot weather shelters for livestock	638
(Corrections)	673, 810
Bichel, Darwin C.	
Machine processes corncocks	471
Blaney, Harry F.	
Consumptive-use requirements for water	870
Blasingame, R. U.	
New coffee scrubber and washer	326
Bogema, M.	
Friction loss in aluminum pipe	715
Head loss in irrigation-line quick couplers	804
Bond, T. E.	
Radiation studies of painted shade materials	389
Boyd, L. L.	
Potato storage ventilation	176
Briggs, Rodney A.	
An agronomist looks at grass silage	811
Bunnelle, Philip R.	
Combine harvesting of small-seed legumes	554
Burrough, D. E.	
Power requirements of combine drives	15
Power characteristics of a plunger- type forage baler	221
Butler, J. L.	
Lightweight sprayer for experimental plots	874

C

Cabbages and kings, "Of	633
Carter, Deane G.	
Economic analysis of farm dairy buildings	19
Castor bean huller, Development of a portable	327
Centennial of farm mechanization	878
Charity, L. F.	
Equipment for bulk cooling of milk	247
Chickens, Application of high-fre- quency electricity to young	865
Clyde, A. W.	
Pitfalls in applying the science of mechanics to tractors and imple- ments	79

Cocke, Joseph B.	
Mechanization of kenaf fiber produc- tion	488
Coffee scrubber and washer	326
Colby, B. C.	
Comparison of soil and water majors in civil and agricultural engineer- ing curriculums	662
Combine drives, Power requirements of	15
Combine harvesting of small-seed legumes	554
Combining corn	500
CONSERVATION, Soil and Water (See also Drainage, Erosion Con- trol, Hydrology, Irrigation, Soils, Water Resources)	
Runoff from conservation and non- conservation watersheds	95
The small watershed	783
Water spreading for storage under- ground	794
Consumptive-use requirements for water	870
Contemporary British and European tractors	155, 233, 311, 399
Converter, Performance of the Henry phase	98
Cook, F. D.	
Cyclic temperature regulator	40
Corncocks, Machine processes	471
Corn dozer for canning plant	859
Cotton mechanization in the Piedmont	102
Couplers, Head loss in irrigation-line quick	804
Crabb, George A. Jr.	
A slide rule for soil moisture deter- minations	163
(Correction)	318
Cropsey, M. G.	
Machine harvests gladiolus corms	565
Crow, F. R.	
Culverts as water runoff measuring devices	28
Rapid methods of determining soil moisture	486
Culverts as water runoff measuring devices	28
Curriculums, Comparison of soil and water majors in civil and agricul- tural engineering	662
D	
Dairy buildings, Economic analysis of farm	19
Dairy-processing equipment, Integra- tion of	574
Dale, A. C.	
Pressures in deep grain storage struc- tures	570
Heat required to vaporize moisture	705

Davis, John R.	
Graphic presentation of mathematical equations	385
Design, Rationalizing analysis in	303
Disks, Effects of methods of manufacture and steel specifications on the service of	91
Doll, E. H.	
Grassed Waterways	417
DRAINAGE, Land (See also Hydrology)	
A runoff sampler for large watersheds—Part I. Laboratory studies	84
Maryland's public drainage program	106
Water table drawdown characteristics	396
Grassed waterways	417
A tile drainage field laboratory	474
Land drainage in California	482
Short method of surveying for small open ditches	644
Practical aspects of draintile durability	717
Drain-spacing formula	726
Consumptive-use requirements for water	870
Drain-spacing formula	726
Draintile durability, Practical aspects of	717
DRYING—Driers (See also Ventilation)	
Some anomalies in the determination of moisture	173
Methods for grain moisture measurement	252
Grain drying with unheated air	393
Measuring air flow with perforated metal sheet	420
Proposed ASAE code: Testing and rating crop-drying equipment	421
A relative humidity probe	505
Air-flow meter for crop drier	658
Heat required to vaporize moisture	705
Drying rice with unheated air	735
Equilibrium moisture and heat of vaporization of shelled corn and wheat	786
Dumm, Lee D.	
Drain-spacing formula	726
Dunkle, R.V.	
The two-ball (total spherical) radiometer	738
Dykes, J. C.	
The small watershed	783

E

Economic feasibility of supplemental irrigation	22
(Correction)	83
ELECTRIFICATION, Rural	
Performance of the Henry phase converter	98
Unified national electric fence code needed	154
The Henry phase converter (Letter)	164
Lethal effects of electrons on insects which infest wheat, flour, and beans (Part II)	407

Adapting electric motors to farm service	630
Feed grinding with electric motors	648
Application of high-frequency electricity to young chickens	865
Electrons on insects which infest wheat, flour, and beans, (Part II)	407
Elfes, L. E.	
Design and development of a high-speed mower	147
Erosion control problems of the humid region	876
EROSION CONTROL, Soil (See also Hydrology, Soils)	
Parallel rows and parallel terraces	307
Erosion control problems of the humid region	876
Eschenwald, Adolfo	
New coffee scrubber and washer	326
Esselen, W. B.	
Design of thermal destruction apparatus	245
Evans, D. D.	
Some effects of mulch tillage	731

F

Fagan, T. D.	
A slide rule for soil moisture determinations	163
(Correction)	318
Farm lands, Our shrinking	414
Farm mechanization, Centennial of	878
Feed from storage to feeding point, Moving	655
Feed grinding with electric motors	648
Fence code needed, Unified national electric	154
Ferguson, Henry A.	
New Farmall tractor torque amplifier	710
Fertilizer machinery, New developments in	165
Fertilizer solutions into high-pressure irrigation systems, Introducing	171
Fetzer, W. R.	
Some anomalies in the determination of moisture	173
Finden, Kenneth A.	
Corn dozer for canning plant	859
Fletcher, Leonard J.	
"Of cabbages and kings"	633
Flexible pipe for irrigation water under low pressure	32
Foods, Temperature variations in stored frozen	493
Ford, James H.	
The Georgia-USDA peanut harvester	168
Forrest, P. J.	
Effects of improper inflation pressures on farm tractor tires	853
Forth, M. W.	
Feed grinding with electric motors	648

Fredenhagen, V. B.	
Grassed waterways	417
Frevert, R. K.	
A runoff sampler for large watersheds—Part I. Laboratory studies	84
A tile drainage field laboratory	474
Friction coefficients of some agricultural materials	411
Friction loss in aluminum pipe	715
Functional design of farm buildings	559
Futral, John G.	
Cotton mechanization in the Piedmont	102
Lightweight sprayer for experimental plots	874

G

Garbage for hog feed, Equipment for heat-treating	406
Garton, James E.	
Rapid methods of determining soil moisture	486
Gated pipe, Determination of water flow	496
Gier, J. T.	
The two-ball (total spherical) radiometer	738
Gladiolus corms, Machine harvests	565
Goss, John R.	
Combine harvesting of small-seed legumes	554
Graham, J. A.	
Power characteristics of a plunger-type forage baler	221
Grain drying with unheated air	393
Grain storage structures, Pressures in deep	570
Graphic presentation of mathematical equations	385
Gray, Harold E.	
Friction loss in aluminum pipe	715
Head loss in irrigation-line quick couplers	804
Graybill, Franklin	
Hot weather shelters for livestock	638
(Corrections)	674, 810
Ground water recharge, Mechanism of	646
Guelle, C. E.	
New developments in fertilizer machinery	165

H

Hall, Carl W.	
Graphic presentation of mathematical equations	385
Integration of dairy-processing equipment	574
Hamilton, C. L.	
Unified national electric fence code needed	154
Hansen, Vaughn E.	
Flexible pipe for irrigation water under low pressure	32

Determination of water flow from gated pipe	496
Harrold, Lloyd L.	
Available moisture for crops	99
Harvesting of small-seed legumes, Combine	554
Harvesting small grass and legume seed	562
Hattrup, H. E.	
Performance of the Henry phase converter	98
Hauser, E. W.	
Lightweight sprayer for experimental plots	874
Hay, Self-feeding of chopped	551
Haynes, B. C., Jr.	
Potato storage ventilation	176
Heat required to vaporize moisture	705
Hedlin, C. P.	
A relative humidity probe	505
Air-flow meter for crop drier	658
Hedman, C. L.	
Application of anhydrous ammonia fertilizer	801
Hemker, W. D.	
The Henry phase converter (Letter)	164
Henderson, S. M.	
Agricultural processing engineering	333
Henry phase converter, The (Letter)	164
High-frequency electricity to young chickens, Application of	865
Hog feed, Equipment for heat-treating garbage for	406
Hooper, J. M.	
Effects of improper inflation pressures on farm tractor tires	853
Hore, F. R.	
Water table drawdown characteristics	396
Hot weather shelters for livestock	638
(Corrections)	674, 810
Huller, Development of a portable castor bean	327
Hukill, W. V.	
Grain drying with unheated air	393
Humidity probe, A relative	505
Hummell, John D.	
Practical experiences with alcohol-water injection in trucks and farm tractors	319
Hydraulic systems, Tractor hitches	789
HYDROLOGY	
Culverts as water runoff measuring devices	28
A runoff sampler for large watersheds—Part I. Laboratory studies	84
Implements, Farm (See Machinery)	

I

Infiltration, Estimating	719
Inflation pressures on farm tractor tires, Effects of improper	853

INSTRUMENTATION AND CONTROLS

Cyclic temperature regulator	40
Measuring air flow with perforated metal sheet	420
A relative humidity probe	505
Air-flow meter for crop drier	658
The two-ball (total spherical) radiometer	738
IRRIGATION	
Economic feasibility of supplemental irrigation	22
(Correction)	83
Flexible pipe for irrigation water under low pressure	32
Field performance and maintenance of deep-well turbine pumps	34
Available moisture for crops	99
Introducing fertilizer solutions into high-pressure irrigation systems	171
Equipment for installing gypsum moisture blocks	337
Determination of water flow from gated pipe	496
Power units for irrigation	576
Friction loss in aluminum pipe	715
Estimating infiltration	719
Head loss in irrigation-line quick couplers	804
Removal of dents from irrigation pipe	861
Ittner, N. R.	
Radiation studies of painted shade materials	389

J

James, Paul	
Equipment for heat-treating garbage for hog feed	406
Jensen, James K.	
Experimental stress analysis	625
Johannsen, Bruno B.	
Tractor hitches and hydraulic systems	789
Johnson, H. K.	
Heat required to vaporize moisture	705
Johnson, Paul C.	
What farmers want and need in tractors and implements	230
Jones, Luther G.	
Combine harvesting of small-seed legumes	554

K

Kelly, C. F.	
Radiation studies of painted shade materials	389
Kemp, J. G.	
Cyclic temperature regulator	40
Kenaf fiber production, Mechanization of	488
Kidder, E. H.	
Water table drawdown characteristics	396

Kinard, D. T.	
Application of high-frequency electricity to young chickens	865
Kirk, Dale E.	
Removal of dents from irrigation pipe	861
Kirkham, Don	
A tile drainage field laboratory	474
Kleis, R. W.	
Moving feed from storage to feeding point	655
Klute, A.	
Movement of water in soils	808
Knight, W. H.	
Performance of the Henry phase converter	98
Krimgold, D. B.	
Economic feasibility of supplemental irrigation	22
(Correction)	83
Estimating infiltration	719

L

Lamb, Charles A.	
Field performance and maintenance of deep-well turbine pumps	34
Land drainage in California	482
Lands, Our shrinking farm	414
Layer, J. W.	
Potato storage ventilation	176
Leakage in controlled-atmosphere storage, Air	635
Legume seed, Harvesting small grass and	562
Legumes, Combine harvesting of small-seed	554
Lehmann, E. W.	
Feed grinding with electric motors	648
Levine, Gilbert	
Friction loss in aluminum pipe	715
Head loss in irrigation-line quick couplers	804
Lorenzen, Coby	
Rationalizing analysis in design	303
Lunde, R. N.	
Machine harvests gladiolus corms	565

Mc

McCreery, W. F.	
Effects of methods of manufacture and steel specifications on the service of disks	91

M
